

Ghana College of  
Physicians and Surgeons

# GCPS E-PORT

# CONNECTING TRAINERS TO TRAINEES DIGITALLY

e-PORT connects trainers in different hospitals to trainees. Each trainer is tasked to monitor the training process of trainees.

# ROTATIONS

e-PORT manages rotations of trainees spread within training departments and across different training centers. It enables designing rotation schedules and monitoring rotation adherence by trainees in real-time.

# PROCEDURES

e-PORT enables a trainee to record and receive trainer certification for procedures performed or observed at a Training Centre or Training Site. A trainer approves and rates the procedures or observations without any paper work.

# CONTINUING PROFESSIONAL DEV. (CPD)

ePORT captures all CPD activities of trainees and makes the data available to trainers in real-time .

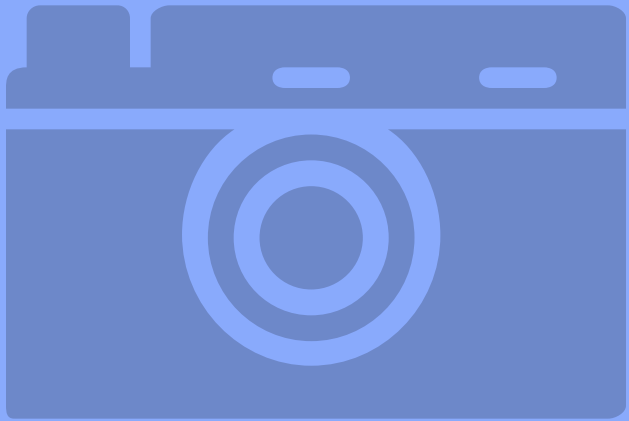

# ASSESSMENT

With e-PORT, trainers and trainees can be assessed from any internet enabled device thereby saving time and cost. .Assessment information is also made available to GCPS staff in real-time .

# Multi Media Support

ePORT enables trainees to attach images and videos to the procedures they undertake.

# COURSE TUTORIALS ( IN WORKS )

- e-PORT will provide trainees with video tutorials on medical procedures listed on the System.

# COLLABORATIONS ( IN WORKS )

- e-PORT will enable trainers and trainees to share information on cases in real time through group chats and video messages

# ADVANTAGES

- Provides a digital record of the training experience of each Resident
- Enables the College to digitally monitor and evaluate the training of Residents
- Helps Trainers to remotely assess the performance of trainees
- Helps Faculties of the College to promptly identify Residents who are not making appropriate progress in training

**THANK  
YOU!**
